An alternative way to live your hosting experience in the land of venice and its countryside

10 selected hystorical villas and their unique features linked together by territory experiences

THECLUB.VILLEVENETEFORYOU

was founded within the union of 10 owners of certified "Ville Venete" – an artistic and cultural heritage of inestimable value – with the aim of creating a network of tourist offers linked, for the first time in our Region, by a series of fascinating experiences and excursions in our territory.

Through our platform, it will be possible to combine room reservations, weddings, corporate conventions and events in general, in some of the most luxurious and ancient accommodation mansions of the Veneto region, with the possibility to enjoy the journey in an experiential way. Fishing, mountain biking, tastings, vintage cars, customized guided tours, museums, spa, castles, golf are only a small part of the possible choices: everything is already perfectly organized and operating in our network.

The excursions can take place in one single villa or more and can be booked with customized smart boxes that you can create yourself according to your needs or preferences.
